## Profile

Graphic and multimedia designer with photography and video project experience since 2010. I create packaging, advertising graphics and e-commerce content, from design options and team review to production files. I independently learn technical approaches and introduce workflow automation, including with support from AI tools.

## Professional Experience

### Digital Technology and Web Development Specialist

MPH Medienpark Hamburg, Halstenbek | 05/2025 – present

Graphic and multimedia design, web and automation.
Initially a Minijob; full-time since 07/2026.

- Develop and update packaging and game components across six PLAY THAT SONG editions; prepare production files in Photoshop and Illustrator. For Standard DE, updated the existing artwork and replaced the back panel; the original design is by another designer.
- Create product galleries, Amazon A+ Content, advertising graphics and social media assets; adapt content for different editions and languages.
- Design exhibition banners and printed materials, including a produced six-panel folded exhibition leaflet.
- Shoot and edit photographs, edit video in Premiere Pro, and retouch and colour-correct images in Lightroom. Create basic product visualisations in Blender.
- Initiated and built the Shopify shop; completely reworked the brand website and created its visuals. Maintain both sites and run Google Ads and Meta Ads campaigns.

#### Initiatives and Automation at MPH

- Built a Python card generator with JSON content storage to replace manual Word layouts. The first version produced the revised Standard card set in seconds. Switched to SVG for Filmmusik; later versions for Jazz, Kids Hits and Deutschplaylist automatically size highlighted questions and position bonus points. Added genre and year for Kids Hits.
- Built and regularly use FrameText Studio, a panel for text graphics, logos and animation in Premiere Pro. Independently defined requirements and workflow; implemented with documentation and AI tools, including ChatGPT, and tested against work tasks.
- Created invoice and delivery-note tools used by the team. Independently research technical solutions and deliver materials across formats to tight deadlines.

## Additional Professional Experience

### Software Development Intern

UpTeam GmbH, Berlin | 01/2026 – 02/2026

Remote evening internship alongside my main job. Worked in an Agile team on frontend tasks with React and TypeScript and backend tasks with Java and Spring Boot.

### Freelance Photographer and Videographer

Kyiv | 06/2010 – 01/2024

Portrait, event and advertising photography, video editing and colour grading for client projects.

### Photographer and Photo Lab Operator

Smile Photo Studio, Kyiv | 02/2020 – 02/2022

Studio and location shoots, customer service, colour correction, batch processing and professional photo printing; trained new photographers.

### IT Specialist

Silpo and Infanta Karnaval, Kyiv | 10/2016 – 02/2020

Supported workplace computers, peripherals, networks and software.

## Skills

**Graphics and packaging** Photoshop, Illustrator, layout and prepress; Amazon A+ Content and product galleries.

**Photography and video** Photography, Lightroom, Premiere Pro, Audition; editing, retouching and colour grading.

**Web and e-commerce** Shopify, WordPress, HTML, CSS; Liquid and JavaScript for shop customisation.

**Automation and development** Python, JSON, SVG; card generation and workflow automation. JavaScript, TypeScript, React, Git; AI-assisted workflows.

**Digital advertising** Google Ads, Meta Ads, Meta Pixel, Google Merchant Center.

**3D** Basic modelling and visualisation in Blender; fundamentals of Cinema 4D.

## Education and Further Training

### Online Fullstack Development Course

AIT TR GmbH, Berlin | 07/2025 – 02/2026

Certificate of participation. Began software development training in Kyiv in early 2024, paused for relocation, then resumed in the evenings alongside work. Self-funded training.

### German Language Course

Adult education, Halstenbek

Completed the DTZ examination; B1 certificate. Continue to develop German through everyday work.

### Bachelor’s Degree in English Philology and Translation

Interregional Academy of Personnel Management, Kyiv | 2011 – 2015

## Languages and Additional Information

Ukrainian and Russian: native. English: B1–B2, used at work. German: B1, DTZ certificate.

Relocated to Germany in 2024.
